Scissors to cut fabric

Optional – small scissors to cut threads

Pins

Seam ripper

1 Bobbin

Fabric: per pattern. See below for information to determine size and fabric requirements.

Machine required. WSS Kit Required.

### **Guidelines to help you find your size and fabric requirements:**

Measure your hips at the widest area – generally about 7” below waist for teens/adult

Check the chart for hip measurement. The next line down is your size.

Note: If you are between sizes, go with the larger size for pajama comfort.

C Pants: Follow your size down the envelope to find your fabric width.

Check the width of your fabric choice before purchase.

Purchase the yardage shown for your size + 1/8 yard. The extra fabric is to allow for shrinkage. I recommend washing, drying and ironing your fabric before class day. This will limit the amount of shrinkage of your completed project.

Example:

Hip measurement: 31” if you are a child/teen

Size is: M 10-12

Fabric width: 42”

C Pants fabric purchase: 2 1/8 yard + 1/8 yard equals 2 ¼ yards to purchase.

Elastic – 1 yard of 1” wide

C Hip: Finished size: In our example above – the finished pant measures 36 ½” at the hips.
